

HINTS AND TIPS WHEN ORDERING GUTTERING:

- Don't forget to order rivets (Sold in bags of 100)
 - Approximately 2 per joint of Half Round gutter / running outlet / corner / stop end
 - Approximately 4 per joint of Ogee or Box gutter / running outlet / corner / stop end
- We supply silicone sealant for sealing joints and stop ends
 - Approximate number of joins a tube will seal
 - Standard Half Round - 32
 - Large Half Round - 20
 - Standard Box and Ogee - 16
 - Large Box and Ogee - 10
 - Required for stop ends too
 - If you use your own Low Modulus Glazing Sealant we recommend you test it prior to installation
- Half Round guttering does not require any joints for installing as the guttering has silicone applied, overlapped and riveted
- Ogee and Box gutters require internal joints for the guttering / running outlets / corners
- Downpipe connectors are only required if you cut the downpipe and want to use the offcuts
